

OUR DOCTORS

Dr Dolly Mittal

MBBS, FRACP

Medical Oncologist

Dr Dolly Mittal is a Medical oncologist who is passionate about providing high quality, evidence-based care to her patients. Dr Mittal has completed her specialist medical oncology training across multiple hospitals in Queensland, including The Royal Brisbane and Women's Hospital, Mater Hospital Brisbane, Redcliffe Hospital, Gold Coast University Hospital and Princess Alexandra Hospital. Prior to that, she undertook basic physician training at The Prince Charles Hospital.

Dr Mittal has also worked as a Research Fellow at Mater Cancer Care Centre, South Brisbane which is well known for providing high quality care to patients with breast and gynaecological cancers in Queensland. During her fellowship, she has been actively involved as a co-investigator in most of the clinical trials and has gained an extensive knowledge in treating breast and gynaecological cancers. She is committed to providing high quality, evidence-based care to patients with solid organ malignancies with a focus on biological, targeted treatment and immunotherapies. She is known for her kind and approachable nature.

Apart from Westside Private Hospital, she has a staff specialist appointment at Mater Private Hospital, Springfield and also visits St. Stephen's Private Hospital, Urraween as a VMO.

Throughout her career Dr Mittal has been actively involved in the training of medical students and medical trainees. Currently she holds a title of a Lecturer at University of Queensland. She maintains an active involvement in research and has presented her work at several conferences and professional meetings.

Dr Mittal has a special interest in:

- **Breast**
- **Gastrointestinal**
- **Genito-urinary**
- **Melanoma**
